

Academic Success Center

The Academic Success Center provides free academic assistance to NC State undergraduate students enrolled for credit in many challenging introductory accounting, biology, chemistry, economics, genetics, math, physics, and statistics classes. Several types of assistance are available that are designed to best meet the students' needs, including 1:1 appointment tutoring, group tutoring, drop-in tutoring, and Supplemental Instruction (SI). In addition, writing consultations are available to both undergraduate and graduate students to provide assistance at any stage of the writing process in the English language. Academic peer mentoring is also available to students wishing to work on general academic skills such as note-taking, time management, and test preparation.

Students are eligible to become a peer tutor or mentor for the ASC if they have an established GPA of 3.25 or better and at least a B+ in the course(s) they wish to tutor. All new student employees are required to take USC 210 during the first semester of employment to learn techniques designed to help students become independent learners.
