

Multicultural Student Affairs

Multicultural Student Affairs (MSA) is open to all students (graduate and undergraduate) from all backgrounds, cultures, and identities and aims to increase student success and belonging through culturally relevant activities that celebrate and affirm our campus community's many identities and lived experiences.— Our programs and services center on leadership development, academic enrichment, education, mentorship, and student support.

We research, design, and implement culturally responsive initiatives, events, and programs that promote the pursuit of academic and personal success, retention, and graduation of students. Our programs and services include the Symposium for Multicultural Scholars, peer mentoring, Multicultural Leadership Challenge, Heritage Month programming, cultural celebrations, academic recognition programs, student leadership development, and advising/individualized referrals.

Located on the 4th floor of Talley Student Union in Suite 4261, we welcome any NC State student to attend our programs, visit MSA, and engage in our community. Visit our website (<https://msa.dasa.ncsu.edu/>) or follow us on Instagram @ncstatemsa for more information.
