

Training & Development

The Master of Education (M.Ed.) degree in Training and Development, a fully online program, is based on a reflective practice approach offering practitioners opportunities to integrate their professional experiences with human resource development knowledge and practice skills. Completing this master's program will give you the professional knowledge and skills required for entry or advancement in instructional design, and instructional, administrative, or evaluation positions that involve performance-based training. Our courses are aligned with the Association of Talent Development's Core Competency Model.

Our program emphasizes:

- Instructional Design
- Human Resource Development
- Adult Learning
- Reflective Practice
- Team Learning
- Evaluation and Assessment
- Durable Skills
