

# Parks, Recreation, and Tourism Management

The Doctoral degree allows students to match their particular research interests and career aspirations with departmental research activities and faculty expertise. The primary areas of interest for students include health and well-being, human dimensions of the natural and built environment, sustainable and equitable tourism, and geospatial methods and modelling with a substantive area of study in another discipline.

The Master's degree provides students the opportunity to develop and enhance their critical understanding of both the conceptual foundations of parks, recreation and tourism management and the procedures of systematic inquiry and critical problem solving as applied to planning and management issues. The department offers educational opportunities and resources for the preparation of professionals concerned with planning, organizing, managing and directing parks, recreation, sport, and tourism programs, areas, and facilities. Two Master's Degree options are available, MS in Parks, Recreation and Tourism Management (thesis), and Online Professional Master of Parks, Recreation, Tourism and Sport Management (MPRTSM) (non-thesis). As part of the Natural Resources Masters Program (<http://catalog.ncsu.edu/graduate/natural-resources/natural-resources/>), the Department administers two degree options under the Outdoor Recreation Technical Option. In addition, the Graduate Certificate in Sport and Entertainment Venue Management (<http://catalog.ncsu.edu/graduate/natural-resources/parks-recreation-tourism-management/sport-entertainment-venue-management-certificate/>) (SEVM) and the Human Dimensions of Natural Resources Graduate Minor (<http://catalog.ncsu.edu/graduate/natural-resources/parks-recreation-tourism-management/human-dimensions-natural-resources-minor/>) are offered by the Department.

The general emphasis areas at the Master's level include: parks and recreation management, tourism development and management, geographic information systems, recreational sport management, and natural resource recreation management.

The online MPRTSM degree provides students with a solid professional and business education designed to advance their career development in parks, recreation, tourism, and sport industries. The online degree program operates on a cohort model and admits students in fall and spring semester.

## Doctoral Degree Requirements

Although each doctoral course of study will be unique to the individual student, the usual course of study will include a minimum of 54 hours beyond the Master's. These credit hours are distributed among the core courses, statistics and research methods, a minor or substantive area consisting of 15 hours of course work approved by the student's faculty advisor, and the dissertation. Students are expected to have completed a Master's degree, preferably one with a thesis. Students without research experience will have to demonstrate an ability to produce scholarly work in PRTM.

## Master's Degree Requirements

Each Master's Degree has (Master of Parks, Recreation, and Tourism Management (<http://catalog.ncsu.edu/graduate/natural-resources/parks-recreation-tourism-management/parks-recreation-tourism-sport-management-mr/>) & Master of Science (<http://catalog.ncsu.edu/graduate/natural-resources/parks-recreation-tourism-management/parks-recreation-tourism-sport-management-ms/>)). The minimum credit hours range from 30 for MS in PRTM Degree, to 34 for MNR-Outdoor Recreation Technical Option Degree. Doctoral and M.S. application deadline is February 15 for both U.S. and international students. Online Degree-MPRTSM application deadline is May 15.

The minimum credit hours range from 30 for MS in PRTM Degree, to 34 for MNR-Outdoor Recreation Technical Option Degree. Doctoral and M.S. application deadline is February 15 for both U.S. and international students. Online Degree-MPRTSM application deadline is May 15.

## Student Financial Support

Graduate assistantships are available to students in PhD and MS degree program on a competitive basis.

## More Information

Parks, Recreation, and Tourism Management Program Website (<https://cnr.ncsu.edu/prtm/graduate/degree-programs/>)

Parks, Recreation and Tourism Management graduate students are admitted to the university through NC State's Graduate School. Faculty in our department review applications and make recommendations to the Graduate School regarding admission of applicants to the department. A critical factor in our admission decisions for on-campus graduate degrees is whether there is a match of research interests between an applicant and a faculty member who is available to serve as academic advisor. Please review our faculty research and our faculty experts and contact the faculty members who share your academic interests. We cannot admit any students without a faculty sponsor regardless of their credentials.

## Applicant Information

- **Delivery Method:** On-Campus
- **Entrance Exam:** None
- **Interview Required:** None

## Application Deadlines

**Fall:** February 15 (Masters and Doctoral)

## Degrees
