Food Science (BS): **Business & Technology** Concentration

The Bachelor of Science degree in Food Science is offered through two curricula emphasizing science or business & technology. The science curriculum is designed for students desiring a more analytically intense program leading to technical careers in the food industry or graduate school. Students with an interest in business opportunities will find the technology program permits greater flexibility to pursue coursework in business, agricultural economics, or related fields.

Plan Requirements

Code	Title Ho	urs
Orientation		
ALS 103	First-year Success in Agriculture and Life Sciences	1
or ALS 303	Transfer Success in Agriculture and Life Sciences	
Communication	1	
COM 110	Public Speaking	3
or COM 112	Interpersonal Communication	
Mathematical S	ciences	
MA 107	Precalculus I	3
Select one of the	e following:	6
MA 131 & MA 231	Calculus for Life and Management Sciences A and Calculus for Life and Management Sciences B	
MA 114 & MA 121	Introduction to Finite Mathematics with Applications and Elements of Calculus	
MA 132	Computational Mathematics for Life and Management Sciences	1
ST 311	Introduction to Statistics	3
Sciences		
BIO 181	Introductory Biology: Ecology, Evolution, and Biodiversity	4
or BIO 183	Introductory Biology: Cellular and Molecular Biology	/
CH 101 & CH 102	Chemistry - A Molecular Science and General Chemistry Laboratory	4
CH 201 & CH 202	Chemistry - A Quantitative Science and Quantitative Chemistry Laboratory	4
Select one of the	e following:	4
CH 220 & CH 222	Introductory Organic Chemistry and Organic Chemistry I Lab	
CH 221 & CH 222	Organic Chemistry I and Organic Chemistry I Lab	
MB 351 & MB 352	General Microbiology and General Microbiology Laboratory	4
PY 211	College Physics I	4
Major Requirem	nents	
FS 201	Introduction to Food Science	3
FS 231	Principles of Food and Bioprocess Engineering	4
FS 290	Careers in Food and Bioprocessing Sciences	1

FS 402	Chemistry of Food and Bioprocessed Materials	4
FS 403	Analytical Techniques in Food & Bioprocessing Science	4
FS 405	Food Microbiology	4
& FS 406	and Food Microbiology Lab	
FS 416	Quality Control in Food and Bioprocessing	3
FS 421	Food Preservation	3
FS 475	Problems and Design in Food and Bioprocessing Science	3
Food Science Electives (p. 1)		6
Business & Economics/Minor Requirements		

Nine credits of Business or Economics must be included or the student must complete a minor in any field of their choosing. If a minor is chosen, restricted electives and free electives may be used to fulfill the minor requirements. Most minors require 15 to 21 credits. Note: 300 level BUS/MIE courses are restricted to students in the BUS minor or major; 400 level BUS courses restricted to students in BUS major.

BUS major.		
Select one of the	following:	3
ARE 201	Introduction to Agricultural & Resource Economics	
ARE 201A	Introduction to Agricultural & Resource Economics	
EC 201	Principles of Microeconomics

Career Opportunities

Consumer demand for safe, high quality, nutritious foods and biopharmaceutical products, as well as for educational programs designed to promote healthy eating, creates a variety of career opportunities in the food, pharmaceutical and the allied health industries. Industrial opportunities include management, research and development, process supervision, quality control and assurance, procurement, distribution, and sales. Public health opportunities include educational program development, delivery, and assessment. In addition, graduates hold positions with government agencies and many with advanced degrees have teaching and/or research positions in colleges and universities.

Food Science

Many career opportunities exist in the food and beverage industry, the world's largest manufacturing sector, for graduates with a Food Science degree. Food science professionals are involved in the discovery of new food sources, new methods of food preservation, advances in food chemistry and sensory science and even product development. Positions are found worldwide, providing technical support to the food, beverage, and pharmaceutical industries and also government agencies. Food scientists work to ensure the safety and quality of foods through the application of basic scientific principles. The demand for food scientists continues to increase as the food industry expands.

The undergraduate Food Science major has two emphasis tracks. One is **Science** and the other is **Technology**. The B.S. in Food Science with a **Science** emphasis is designed for students who want more rigorous science courses to prepare them for graduate school or careers in the food, pharmaceutical, and or bioprocessing industries. The B.S. in Food Science with a **Technology** emphasis is designed for students more interested in business opportunities for technically trained individuals. It offers greater flexibility in complementing Food Science coursework with business, agricultural commodity, and computer science courses.

Scholarships

The department provides both merit and financial need scholarships to encourage and assist students preparing for careers in Food, Bioprocessing, or Nutrition Science.

Career Titles

- Agricultural Engineer
- · Agricultural Inspector
- Chemical Technicians
- Dairy Technologist
- Food & Drug Inspector
- Food Science Technicians
- Food Technologist
- Laboratory Tester
- Sales Representative (Agricultural Products)
