Chemical Engineering (BS): CHE/TE Dual Major

Students have the option of pursuing a CHE/TE dual major (https://catalog.ncsu.edu/undergraduate/engineering/chemical-biomolecular/chemical-engineering-bs-textile-dual-major/#planrequirementstext). The Wilson College of Textiles engineering program (https://textiles.ncsu.edu/tecs/) is an interdisciplinary curriculum drawing on diverse science and engineering principles. Textile Engineering students develop a unique background, which allows them to pursue undergraduate research, summer intern experiences, and design projects ranging from artificial blood vessel development to the design of novel water filtration units for remote villages to structures to protect astronauts from radiation while on the moon. The program offers small class sizes with personal attention from faculty. In addition, in the last three years graduates have had nearly 100% placement into full-time employment or graduate school.

Plan Requirements

First Year		Hours
Fall Semester CH 101 or CH 103	Chemistry - A Molecular Science ¹ or General Chemistry I for Students in Chemical Sciences	3
CH 102 or CH 104	General Chemistry Laboratory ¹ or General Chemistry Laboratory I for Students in Chemical Sciences	1
E 101	Introduction to Engineering & Problem Solving ²	1
E 115	Introduction to Computing Environments	1
MA 141	Calculus I ¹	4
Acad Writing Research	ch (p. 2) ²	4
	Hours	14
Spring Semester		
CH 201 or CH 203	Chemistry - A Quantitative Science ² or General Chemistry II for Students in Chemical Sciences	3
CH 202 or CH 204	Quantitative Chemistry Laboratory ² or General Chemistry Laboratory II for Students in Chemical Sciences	1
MA 241	Calculus II ¹	4
PY 205 & PY 206	Physics for Engineers and Scientists I and Physics for Engineers and Scientists I Laboratory ¹	4
TE 110	Computer-Based Modeling for Engineers	3
E 102	Engineering in the 21st Century	2
	Hours	17
Second Year		
Fall Semester	_	
CH 221 or CH 225	Organic Chemistry I ² or Organic Chemistry I for Students in Chemical Sciences	3
CH 222 or CH 226	Organic Chemistry I Lab ² or Organic Chemistry Laboratory I for Students in Chemical Sciences	1

Franks and an Tarakla Olmanian and I I have

- ⁴ CHE 315/316 will replace TE 303 (in the Textile Engineering curriculum)
- TE 401/402 will replace CHE 450/451 (in the Chemical Engineering curriculum)6 CH 225/226 may substitute for CH 221/222 and CH 227/228 may substitute for CH 223/224.
- ⁶ CH 103/104 may substitute for CH 101/102 and CH 203/204 may substitute for CH 201/202
- ⁷ CH 225/226 may substitute for CH 221/222 and CH 227/228 may substitute for CH 223/224.

Career Opportunities

Careers in chemical engineering are sometimes exciting, always demanding, and ultimately provide a sense of accomplishment and achievement. Graduates find employment in sub-disciplines such as production, technical service, sales, management and administration; research and development; and consulting and teaching. Students desiring careers in teaching, research, or consulting are encouraged to continue their education and pursue a graduate degree (consult the Graduate Catalog). The undergraduate curriculum also provides strong preparation for graduate study in a wide range of professional specialties, and chemical engineering graduates often pursue careers in the medical sciences, business management, and law.

Career Titles

- · Agricultural Engineer
- Automotive Engineer
- Biochemist
- Biomedical Engineer
- Chemical Engineer
- Chemist
- Dairy Technologist
- · Electronics Engineer
- Engineering Professor
- Environmental Engineer
- Fire Prevention Engineer
- Industrial Air Pollution Analyst
- · Industrial Waste Inspector
- · Laboratory Tester
- Materials Engineer
- Materials Scientist
- Nanosystems Engineers
- Non-Destructive Testing Specialists
- Nuclear Engineer
- Nuclear Fuels Research Engineer
- Occupational Safety & Health Inspector
- Perfumer
- Petroleum Engineer
- Physicist
- Physics Professor
- Product Safety Engineer
- · Quality Control Managers
- Radiation Protection Engineer
- · Safety Inspector
- Sales Engineers

¹ Grade of C (2.0) or higher required.

Minimum grade of C- required.

³ CH 221 will replace TE 200 (in the Textile Engineering curriculum)

- Sales Representative (Chemicals & Drugs)
- Soil Engineer
- · Solar Energy Systems Engineers
- · Sustainability Specialists
- Toxicologist
- Water/Wastewater Engineers
