Electrical Engineering (BS): Music Technology Concentration

The EE core courses provide a foundation for all EE students in electric circuits, digital logic, computer systems, programming, signals, linear systems, microelectronics, electromagnetics, teaming and communication, and the social and ethical dimensions of the practice of electrical and computer engineering.

EE offers a robust set of concentrations to guide students in their studies. All concentrations within EE share the core courses required by the major. Concentrations are offered in the following areas: Analog Circuits, Artificial Intelligence and Machine Learning, Biomedical Instrumentation, Communications and Signal Processing, Controls and Robotics, Digital Circuits, Electronic Devices, Music Technology, Optics and Photonics, Power Systems, and Radio Frequency Circuits.

Each EE concentration contains 24 hours of work. Students will take 12 hours from a prescribed list of courses that provide the necessary depth and background to pursue a career in the area. An additional 12 hours from a broader list of "open" electives are also required as part of the concentration, and these are meant to reinforce and add breadth to that area. There are many connections between areas and too many to explicitly list, and therefore, the open category gives students the freedom to choose courses that either broaden or deepen their expertise as they determine appropriate in consultation with their advisor. Furthermore, the open elective list intentionally allows students to take courses outside of ECE, such as other engineering, math, or science courses.

In their final year, all Electrical Engineering majors participate in a twosemester senior design course sequence. Students work in teams to solve an engineering problem identified by faculty or industrial sponsors. Over the course of two semesters, students gain experience designing, documenting, and communicating about their project to various audiences.

This curriculum leads to a Bachelor of Science in Electrical Engineering and is nationally accredited by ABET, http://www.abet.org.

The concentration in music technology gives students the skills and interdisciplinary knowledge needed to design new musical technology using electrical components and systems. The required courses include signal processing and two course sequencing from the Music Technology department. Electives emphasize embedded systems, wireless communications, and machine learning.

College of Engineering Courses 400-level or higher with permission of advisor

 ¹ Course required for Change of Degree Audit (CODA).
 ² A grade of C or higher is required.
 ³ A grade of C- or higher is required.
 ⁴ A minimum GPA of 3.5 is required to enroll in graduate-level courses.
 ⁵ Suggested open electives include ECE 403, MUT 315, ECE 460/560, ECE 425.

Fall Semester		Hours
CH 101	Chemistry - A Molecular Science 1,2	3
CH 102	General Chemistry Laboratory ^{1,2}	1

E 101	Introduction to Engineering & Problem Solving ³	1
E 115	Introduction to Computing Environments ³	1
ENG 101	Academic Writing and Research ³	4
MA 141	Calculus I ^{1,2}	4
	cise Studies (http://catalog.ncsu.edu/ ategory-requirements/gep-health-exercise-	1
	Hours	15
Spring Semester		
ECE 109	Introduction to Computer Systems ³	3
MA 241	Calculus II ^{1,2}	4
PY 205	Physics for Engineers and Scientists I ^{1,2}	3
PY 206	Physics for Engineers and Scientists I Laboratory ^{1,2}	1
E 102	Engineering in the 21st Century ³	2
EC 205	Fundamentals of Economics	3
or EC 201 or ARE 201 or ARE 201A	or Principles of Microeconomics or Introduction to Agricultural & Resource Economics or Introduction to Agricultural & Resource Economics	
	Hours	16
Second Year		
Fall Semester		
ECE 200	Introduction to Signals, Circuits and Systems 3	4
ECE 209	Computer Systems Programming ³	3
MA 242	Calculus III	4
PY 208	Physics for Engineers and Scientists II	3
PY 209	Physics for Engineers and Scientists II Laboratory	1
	Hours	15
Spring Semester		
COM 110	Public Speaking	3
ECE 211	Electric Circuits ³	4
ECE 212	Fundamentals of Logic Design ³	3
ECE 220	Analytical Foundations of Electrical and Computer Engineering ³	3
GEP Requirement (ht category-requirement	tp://catalog.ncsu.edu/undergraduate/gep- s/)	3
	Hours	16
Third Year		
Fall Semester		
ECE 301	Linear Systems	3
ECE 302	Microelectronics	4
ST 371	Introduction to Probability and Distribution Theory	3
Open Electives (p. 2)	5	3

ECE 383 Introduction to Entrepreneurship and New Product Development	
ECE 381 Engineering Profession for Computer Engineers	
ECE 380 Engineering Profession for Electrical Engineers	
Select one of the following:	1
ECE 303 Electromagnetic Fields	3

- ¹ Courses required for Change of Degree Audit (CODA).
- ² A grade of C or higher is required.

³ A grade of C- or higher is required. E 115 requires satisfactory completion (S).

- ⁴ A minimum GPA of 3.5 is required to enroll in graduate-level courses. ⁵ Suggested open electives include ECE 403, MUT 315, ECE 460/560,
- ECE 425.

Career Opportunities

Career Titles

- Computer Network Architects
- Control and Valve Installers and Repairers, Except Mechanical Door
- Electrical Drafter
- Electrical Engineer
- Electrical EngineeringTechnician

- Electro-Mechanical Technicians
- Electronic Drafter
- Electronics Engineer
- Electronics Technician
- Engineering Professor
- Instrument Technician
- Mechanical Drafter
- Mechatronics Engineers

Learn More About Careers

NCcareers.org (https://nccareers.org/)

Explore North Carolina's central online resource for students, parents, educators, job seekers and career counselors looking for high quality job and career information.

Occupational Outlook Handbook (https://www.bls.gov/ooh/) Browse the Occupational Outlook Handbook published by the Bureau of Labor Statistics to view state and area employment and wage statistics. You can also identify and compare similar occupations based on your interests.

Career One Stop Videos (https://www.careeronestop.org/) View videos that provide career details and information on wages, employment trends, skills needed, and more for any occupation. Sponsored by the U.S. Department of Labor.

Focus 2 Career Assessment (https://careers.dasa.ncsu.edu/explorecareers/career-assessments/) (NC State student email address required) This career, major and education planning system is available to current NC State students to learn about how your values, interests, competencies, and personality fit into the NC State majors and your future career. An NC State email address is required to create an account. Make an appointment with your career counselor (https:// careers.dasa.ncsu.edu/about/hours-appointments/) to discuss the results.

Focus 2 Apply Assessment (https://www.focus2career.com/Portal/ Register.cfm?SID=1929) (Available to prospective students) A career assessment tool designed to support prospective students in exploring and choosing the right major and career path based on your unique personality, interests, skills and values. Get started with Focus 2 Apply and see how it can guide your journey at NC State.

Institute of Electrical and Electronic Engineers (http://www.ieee.org/) National Society of Professional Engineers (https://www.nspe.org/)
