

Interdisciplinary Studies

The Department of Integrative Humanities and Social Sciences offers a concentration in Self-Design which allows students the opportunity to create a one-of-a-kind Bachelor of Arts (B.A.) or Bachelor of Science (B.S.) degree. Students apply to the the Self-Design in a rigorous process that help you develop a clear vision for your education and attain your personal and professional goals. By allowing students to combine courses from multiple disciplines and take on a multidisciplinary approach to solving problems in our complex world, the Self-Design encourages student creativity and expands intellectual pathways beyond existing majors.

Self-Design Program Coordinator

Dr. Alicia McGill

Associate Professor of History
