# Science, Technology and Society (BS)

The Science, Technology, and Society (STS) curriculum seeks to explore the myriad of ways in which science and technology shape our society. The only program of its kind in North Carolina, the core courses of STS aim to understand the connections between science, technology, economics and commerce, domestic policy and international relations, the environment, health and medicine, and other crucial areas inform basic questions of equity, justice, and sustainability. With these connections in mind, STS students examine how science and technology emerge, how they engage with society, how they change through social processes, and how society changes under their influence.

#### **Free Electives**

Total Hours	120
Free Electives (12 Hr S/U Lmt) <sup>2</sup>	12

- <sup>1</sup> A grade of C- or higher is required.
- <sup>2</sup> Students should consult their academic advisors to determine which courses fill this requirement.
- <sup>3</sup> In consultation with the STS Program Director or an Academic Advisor, every STS major designs a STS Specialty, 15 credit hours, that addresses a coherent theme related to science, technology and society. At least two of the STS Specialty courses must be offered by the departments or programs in the College of Humanities and Social Sciences. STS Specialty includes courses typically at the 300- and 400- or higher levels and no more than one course at the 200-level. 100-level courses are not permitted in the STS specialty.
- \* Major Residency Requirement: At least 18 of the 30 credits in the major (departmental requirements) must be completed following admission to the program. Maximum 15 hours of external transfer credit may be applied towards the major (departmental requirements). Major Grade Point Average (MGPA) Requirements: 2.0 major GPA is required for graduation. See departmental or College for information regarding mgpa calculation.
