

Paper Science and Engineering (BS): Sustainable Packaging Production

The Paper Science and Engineering curriculum prepares students for careers in the paper industry, which ranks as the fifth-largest manufacturing industry in the United States. Science, engineering, and mathematics form the basis for a multidisciplinary approach to understanding the fundamental aspects of materials science and engineering of these complex renewable materials. Students study the technology and engineering of wood pulping processes, chemical and energy recovery systems, and pulp bleaching. In addition, various papermaking operations, such as refining, sizing, coating, and drying are studied. These topics, along with the chemical and biological modification of wood, papermaking, and the physics of paper based materials form a fundamental set of core courses that all students in the curriculum take.

Program Educational Objectives

Within a few years after graduation, alumni of the Paper Science & Engineering Program at NC State University will be:

- Effective engineers and leaders in the paper, chemical process, and related industries.
- Professionals who act in a safe and ethical manner.
- Learners who acquire, analyze, and apply new knowledge effectively.

Summer Internship

All Paper Science and Engineering majors are required to work one summer in a pulp or paper manufacturing facility. One hour of academic credit is granted after completion of 12 weeks of this work and presentation of an engineering report of professional quality. In addition, students are urged to work in manufacturing facilities the other two summers, as the work provides valuable practical experience. Departmental advisers assist students in locating summer jobs, which are found throughout the US and abroad.

Many Paper Science & Engineering students work at least one co-op rotation, in which they leave school for one semester and work in the industry. The resulting experience adds significantly to a student's desirability upon graduation.

Accredited Program

The Paper Science and Engineering program is accredited by the Engineering Accreditation Commission of ABET, <https://www.abet.org> (<https://www.abet.org/>).

Regional Program

The Paper Science and Engineering curriculum is a regional program approved by the Southern Regional Education Board as the undergraduate program to serve the Southeast in this field.

Scholarships

Approximately 125 undergraduate academic scholarships worth approximately \$380,000 are granted annually to new and continuing students by companies comprising the Pulp and Paper Advisory Board, and by alumni and supporters of the program.

Plan Requirements

First Year		Hours
E 101	Introduction to Engineering & Problem Solving ¹	1
E 115	Introduction to Computing Environments	1
CH 101 & CH 102	Chemistry - A Molecular Science and General Chemistry Laboratory ²	4
or		
CH 103 & CH 104	General Chemistry I for Students in Chemical Sciences and General Chemistry Laboratory I for Students in Chemical Sciences	
CH 201 & CH 202	Chemistry - A Quantitative Science and Quantitative Chemistry Laboratory ¹	4
or		
CH 203 & CH 204	General Chemistry II for Students in Chemical Sciences and General Chemistry Laboratory II for Students in Chemical Sciences	
MA 141	Calculus I ²	4
MA 241	Calculus II ²	4
PY 205 & PY 206	Physics for Engineers and Scientists I and Physics for Engineers and Scientists I Laboratory ²	4
PSE 201	Pulping and Papermaking Technology ¹	3
Acad Writing Research (p. 2) ¹		4
Economics Elective (p. 2)		3
Hours		32
Second Year		
CH 221 & CH 222	Organic Chemistry I and Organic Chemistry I Lab ¹	4
or		
CH 225 & CH 226	Organic Chemistry I for Students in Chemical Sciences and Organic Chemistry Laboratory I for Students in Chemical Sciences	
MA 242	Calculus III	4
PSE 332	Wood and Pulping Chemistry	3
PY 208 & PY 209	Physics for Engineers and Scientists II and Physics for Engineers and Scientists II Laboratory	4
CHE 205	Chemical Process Principles	4
PSE 212	Paper Properties ¹	4

PSE 371	Pulping Process Analysis ¹	3
SMT 109	Introduction to Sustainable Packaging	3
SMT 207	Principles of Sustainable Product Development Lecture	2
SMT 217	Principles of Sustainable Product Development Laboratory	1
Hours		32
Third Year		
MAE 201	Thermal-Fluid Sciences	3
PSE 322	Wet End and Polymer Chemistry	4
PSE 355	Pulp and Paper Unit Processes I ¹	3
PSE 360	Pulp and Paper Unit Processes II	3
PSE 370	Pulp and Paper Products and Markets	3
PSE 211	Pulp and Paper Internship	1
SMT 307	Product Visualization	3
SPP Elective ³		3
Hours		23
Fourth Year		
PSE 415	Paper Industry Strategic Project Analysis	3
PSE 416	Process Design and Analysis	3
PSE 417	Modeling & Simulation of Pulp & Paper Processes	3
PSE 465	Process Engineering	3
PSE 472	Paper Process Analysis	3
PSE 475	Process Control in Pulp and Paper	3
PSE 476	Environmental Life Cycle Analysis	3
Hours		21
Total Hours		108

¹ A grade of C- or better is required.

Career Opportunities

Graduates of this curriculum find opportunities for challenging careers as process engineers, product development engineers, process control engineers, chemists, technical service engineers, quality control supervisors, and production supervisors. Design and construction engineering companies employ graduates as project engineers, and pulp and paper machinery/chemical companies use their education and skills for technical service and sales positions. Opportunities for managerial and executive positions are available to graduates as they gain experience.

The broad and intensive nature of this curriculum makes graduates attractive not only to the pulp and paper industry, but also to a variety of other major chemical process and bio-energy industries. This appeal is especially true for the dual degree in Paper Science & Engineering and Chemical Engineering.

Career Titles

- Chemist
- Conservation Scientist
- Engineer
- Environmental Scientist
- Forest and Conservation Technician
- Forester

- Machinery Sales
- Process Control Engineer
- Product Development Engineer
- Production Supervisor
- Quality Control Supervisor
- Technical Service Engineer

Learn More About Careers

NCcareers.org (<https://nccareers.org/>)

Explore North Carolina's central online resource for students, parents, educators, job seekers and career counselors looking for high quality job and career information.

Occupational Outlook Handbook (<https://www.bls.gov/ooh/>)

Browse the Occupational Outlook Handbook published by the Bureau of Labor Statistics to view state and area employment and wage statistics. You can also identify and compare similar occupations based on your interests.

Career One Stop Videos (<https://www.careeronestop.org/>)

View videos that provide career details and information on wages, employment trends, skills needed, and more for any occupation. Sponsored by the U.S. Department of Labor.

Focus 2 Career Assessment (<https://careers.dasa.ncsu.edu/explore-careers/career-assessments/>) (NC State student email address required)
This career, major and education planning system is available to current NC State students to learn about how your values, interests, competencies, and personality fit into the NC State majors and your future career. An NC State email address is required to create an account. Make an appointment with your career counselor (<https://careers.dasa.ncsu.edu/about/hours-appointments/>) to discuss the results.

Focus 2 Apply Assessment (<https://www.focus2career.com/Portal/Register.cfm?SID=1929>) (Available to prospective students)

A career assessment tool designed to support prospective students in exploring and choosing the right major and career path based on your unique personality, interests, skills and values. Get started with Focus 2 Apply and see how it can guide your journey at NC State.
