

# Meteorology (BS): Marine Sciences Concentration

The degree of Bachelor of Science in Meteorology is offered in the Department of Marine, Earth and Atmospheric Sciences. A concentration in Marine Science may also be chosen.

Meteorologists study a diverse array of topics, including climate, air pollution, environmental impacts, weather analysis and forecasting, remote sensing, atmospheric physics and interactions between the atmosphere and other components of the earth system. Our undergraduate students pursue careers in air quality, weather forecasting, meteorological research, broadcast meteorology and positions with the armed forces. The proximity of the Environmental Protection Agency center in nearby Research Triangle Park, the NC Department of Air Quality, a strong working relation with the local media, and the presence of the State Climate Office and a NWS forecast office on the NC State campus all provide our students with a broad range of internship and employment possibilities.

**Total Hours** 120

<sup>1</sup> COS 100 is for new freshmen only. Transfer students will need to select a course from the GEP Interdisciplinary Perspectives course list

<sup>2</sup> A grade of C- or higher is required.

<sup>3</sup> Approved Electives should be selected in consultation with advisor. In order to qualify for federal civil servant meteorologist positions (i.e. National Weather Service), you must satisfy the GS 1340

requirements. As a result the following courses are strongly recommended: PY208/209, MEA 443, MEA 444, and MEA 511.

## Chemistry Option

Code	Title	Hours
CH 201	Chemistry - A Quantitative Science	4
CH 220 & CH 222	Introductory Organic Chemistry and Organic Chemistry I Lab	4
CH 221 & CH 222	Organic Chemistry I and Organic Chemistry I Lab	4

## Geophysical Science Option

Code	Title	Hours
MEA 101	Geology I: Physical	3
PY 123	Stellar and Galactic Astronomy	3
PY 124	Solar System Astronomy	3
SSC 200	Soil Science	3

## Statistics Option

Code	Title	Hours
ST 311	Introduction to Statistics	3
ST 370	Probability and Statistics for Engineers	3
ST 371	Introduction to Probability and Distribution Theory	3

## Semester Sequence

Critical Path Courses -Identify using the code (CP) which courses are considered critical path courses which represent specific major requirements that are predictive of student success in a given program/plan. Place the (CP) next to the credit hours for the course.

## Career Opportunities

MEAS undergraduate degree programs provide talented students with the foundation of scientific knowledge required for careers in government, industry, or academia. Many students pursue graduate degrees after completion of an undergraduate degree in Meteorology.

Meteorology graduates enjoy careers in weather forecasting, air quality assessment, development of weather products and services, broadcast communications, and advanced research. Marine meteorologists study ocean-generated weather systems. Their research is yielding practical benefits such as refined prediction of storm surge, which has streamlined evacuation efforts during severe storms along the Carolina coast. Meteorology graduates with an air quality emphasis work for environmental firms, regulatory agencies, and in applied research. Study of air quality and how air pollution is transported and dispersed is a rapidly expanding field in the atmospheric sciences.

MEAS graduates play a key service role for the State of North Carolina, assisting in everything from forecasting severe storms and analyzing the impact of atmospheric pollutants on agriculture and our estuaries, to determining the effects of toxic waste disposal on quality of surface and ground water.

## Career Titles

- Air Traffic Controller
- Airfield Operations Specialist
- Astronomer
- Atmospheric and Space Scientist
- Atmospheric, Earth, Marine, and Space Sciences Teachers
- Environmental Science and Protection Technician
- Geophysicist
- Meteorologist
- Oceanographer
- Outdoor Education Teacher
- Park Naturalist
- Pilot
- Postsecondary Teacher
- Technical & Scientific Publications Editor
- Weather Forecaster
