

Astrophysics (Minor)

The Astrophysics minor builds a foundation in classical and modern physics to support specialized study in astrophysics and cosmology.

Plan Requirements

- Open to all undergraduates except those majoring or minoring in Physics
- Completion of at least 17 hours of coursework in Physics and Astrophysics listed below
- A grade of 'C-' or better in all courses used for the minor

Code	Title	Hours
Required Courses		
PY 205 or PY 201	Physics for Engineers and Scientists I University Physics I	4
PY 208 or PY 202	Physics for Engineers and Scientists II University Physics II	4
PY 407 or PY 203	Introduction to Modern Physics University Physics III	3-4
Astrophysics Electives		
PY 328	Stellar and Galactic Astrophysics	3
PY 341	Relativity, Gravitation and Cosmology	3
Total Hours		17-18
